Safety Instructions:

- Always wear suitable protective clothing and gloves when working with metal chips to avoid injury.
- Wear safety goggles to protect your eyes from flying particles.
- Wear hearing protection when working with the grinding disc to protect your hearing from noise.
- Avoid excessive pressure when working and ensure that the grinding disc is correctly fitted to prevent breakage.
- Check the tool for damage before each use and do not use if there are signs of overheating or damage.
- Only use with suitable sanding equipment and accessories and keep an eye on the maximum speed of the machine.
- Maximum speed: Do not exceed 12200 min⁻¹, 8500 min⁻¹ or 6600 min⁻¹, depending on the grinding disc requirements.
- Only use the product for the intended materials (steel, stainless steel) and not for improper use in order to avoid hazards.
- Keep the work area clean and free of debris to avoid accidents.
- Wear protective equipment to prevent respiratory and skin irritation when working with steel and stainless steel.
- Safety instructions: Read the operating instructions carefully before use.
