Article Numbers: 721974, 721973, 721972

Safety Instructions:

- Risk of suffocation due to loose wires.
- Wear safety goggles and gloves to avoid injury from flying residues.
- Observe the maximum speed of 12500 min⁻¹ to avoid safety risks such as breakage or overheating.
- Use only for the intended purpose. Misuse can lead to serious injury.
- Keep the product out of the reach of children to prevent accidental injury.
- Use with caution: High speed can lead to dangerous kickback. Always wear personal protective equipment.
- Avoid using the brush if it is visibly damaged.
- The brush should only be used for the intended applications in metal construction in order to minimise safety risks.
