Safety Instructions:

- Do not exceed the maximum speed: 12200 min⁻¹ and 13300 min⁻¹. These limit values must be observed to avoid overheating and dangerous situations.
- Wear safety goggles and a protective mask to protect your eyes and respiratory tract from dust, particles and sparks.
- Protect the area from sparks to avoid the risk of fire, especially in the vicinity of electrical appliances or flammable materials.
- Wear gloves to protect your hands from abrasive substances and skin injuries.
- Before use, ensure that the serrated lock washer is correctly fitted to avoid injury. Regular checks for wear are necessary.
- Ensure that the product is suitable for the intended use and the material to be processed in order to minimise hazards.
- Ventilate area to minimise dust generation and use suitable respirators to avoid inhalation hazards.
- Do not come into contact with eyes and skin to ensure protection against contamination.
- Only carry out high-speed work with suitable protective equipment.
