Safety Instructions:

- Risk of suffocation from dust if used or handled improperly. Ensure adequate ventilation when sanding.
- Risk of injury due to improper use or inadequate protective equipment. Use only with suitable personal protective equipment (safety goggles, hearing protection, respiratory protection, gloves).
- Not for use by persons under 16 years of age without supervision.
- Do not exceed maximum speed: 12200 min⁻¹ or 13300 min⁻¹ to avoid overheating and breakage. Follow the specific instructions for the product used.
- If the serrated lock washer is damaged, stop immediately and replace it. Look for signs of abrasion or damage.
- Always use the machines and equipment recommended by the manufacturer and observe their safety instructions, especially for angle grinders.
- Do not use in the vicinity of flammable materials.
- Ensure that the work area is clean so as not to compromise work safety.
- Do not overload the serrated lock washer and use it securely mounted to minimise the risk of breakage.
- Only use the serrated lock washer for the intended materials (stainless steel, steel).
- To avoid injury when changing the disc, always switch off the machine.
- Products for edge and surface processing can generate hazardous dust particles.
