Please note the technical data of the products!

Article Numbers: 700954, 700953, 700951, 700950, 700949, 700948, 700947, 700946

Safety Instructions:

- Always wear suitable personal protective equipment, including safety goggles, face protection, hearing protection and protective gloves, to avoid injury.
- Ensure that the maximum speed of 12200 min⁻¹ or 13300 min⁻¹, depending on the instructions, is not exceeded in order to minimise the risk of injury and product damage.
- Keep the working environment clean and free of hazards and obstacles to avoid accidents.
- Only use the serrated lock washer for the intended materials (stainless steel and steel) and the intended area of application in order to minimise hazards.
- Check the serrated lock washer regularly for cracks or damage and do not use damaged discs to avoid the risk of breakage.
- Make sure that the hole of 22.23 mm matches the device to ensure secure installation.
- Store the product in a dry place to prevent damage from moisture.
- Do not use in the vicinity of flammable materials as sparks may occur.
- Risk of suffocation from dust and small particles during use - wear a protective mask.
- Before use, ensure correct installation on the machine and read and observe the relevant operating instructions.
- The fan disc is not suitable for use by children.
