Please note the technical data of the products!

Article Numbers: 701100, 701099, 701098, 701097, 701095, 701093, 701092, 701090, 701089, 701088, 701087, 701085, 701084, 701083, 701082

Safety Instructions:

- Use with suitable protective gloves, safety goggles and hearing protection recommended to avoid skin, eye and hearing damage.
- Use respiratory protection to minimise inhalable dusts and health risks from metal dust.
- Keep the product out of the reach of children and not suitable for children. Choking hazard due to small parts.
- Caution: High abrasion can lead to high heat generation. Check the appliance regularly and switch it off if it becomes extremely hot.
- Do not use on electrical appliances that are not properly earthed. Switch off the machine and disconnect it from the power supply before changing the sanding belt.
- Do not use sanding belts above their maximum speed to avoid safety risks.
- Take care when working with sharp-edged materials; sharp edges and abrasive materials can cause injuries.
- Only use in accordance with the intended use. Improper use can lead to injuries. Read the operating instructions.
- When using an abrasive belt, mount it correctly to prevent slipping.
- Do not use in the vicinity of flammable or combustible materials. Sparks may occur.
- Before use, observe the technical and safety data sheets and check the product for defects.
- The work area should be clean, free of flammable materials and well ventilated to avoid respiratory problems caused by dust.
- Avoid skin contact: do not touch directly with your hand while the sanding belt is in operation.
- The product is intended for professional use only. Provide safety data sheets.
- May have sharp edges, therefore wear protective clothing.
