Safety Instructions:

- Use appropriate personal protective equipment, including safety goggles and a respirator, to prevent inhalation of dust.
- Ensure that the grinding disc is fitted correctly and is not cracked or damaged to avoid injury.
- The grinding disc must not be operated above its maximum speed; observe the manufacturer's recommendations.
- Keep the work area well ventilated to minimise the accumulation of sanding dust.
- Read the operating instructions carefully and follow the instructions for correct use.
- Do not use near flammable materials and avoid contact with water to prevent electrical hazards.
- Only use the grinding disc for the intended materials and machines to ensure safety.
- Avoid direct contact with the grinding disc during operation and wear protective gloves to prevent cuts.
- Keep hair and loose clothing away from the machine to avoid injury.
- Additional safety precautions are required for commercial applications.
