Please note the technical data of the products!

Article Numbers: 701189, 701186, 701184, 701180

Safety Instructions:

- Safety goggles and ear protection must be worn when using abrasives.
- Wear suitable protective equipment (e.g. safety goggles, hearing protection, respirator mask) to avoid injury from dust, splinters or noise.
- Make sure to remove material residues from the disc to prevent the abrasive from clogging.
- Do not exceed the maximum speed of the fibre disc (12200 min⁻¹).
- Observe the maximum speed of 13300 rpm to avoid overheating and breakage.
- Do not use in the vicinity of flammable materials.
- Wear suitable protective gloves to protect your hands from injury.
- Do not work on living persons to avoid injuries caused by uncontrolled movements.
- Use only with compatible support discs to ensure safety and product longevity.
- Read the operating instructions carefully before use.
- Designed for aggressive applications; therefore take care when handling and using.
- Use coolants and lubricants to prevent overheating.
- Follow the manufacturer's safety and application instructions before use.
- The processing of aggressive materials can generate harmful dust, so a dust mask is recommended.
- The product should only be used in suitable machines and for the intended purpose.
- Avoid reaching or touching sharp edges.
