Safety Instructions:

- Use suitable protective equipment such as gloves, safety goggles and hearing protection during use.
- Ensure that the cutting disc is securely and correctly mounted to avoid injury.
- Do not operate the cutting disc above the recommended speed to prevent breakage and injury.
- Keep a safe distance from other people while the cutting disc is in operation.
- Avoid contact with water during the cutting process to prevent electrical hazards.
- Ensure that the cutting disc is suitable for the respective machine and material.
- Take care when handling sharp edges and fragments.
- Only use the product in a well-ventilated area.
- Avoid the risk of suffocation from small parts if they are present.
- The blade can produce dangerous sparks when cutting. Keep flammable materials away.
- Do not attempt to use the diamond cutting disc if it is damaged or worn.
- Ensure that the work area is well lit and free of obstacles.
- Avoid contact with the blade during operation to prevent injury.
