Article Number: 722890

Safety Instructions:

- Always wear safety goggles when working with the brush to protect your eyes from flying debris.
- Wear protective gloves during use to avoid skin irritation caused by the wire.
- Make sure that the shaft of the brush sits firmly and securely in the rotary tool to prevent it from jumping out during use.
- Avoid contact with air and moisture to prevent corrosion, which could impair performance.
- Observe the maximum speed of 12000 min⁻¹ to avoid accidents and material fatigue.
