Safety Instructions:

- Observe the maximum speed of the grinding disc, avoid over-tightening to prevent the disc from breaking.
- Wear suitable personal protective equipment (e.g. respiratory protection, safety goggles, protective gloves) to avoid injury from dust and particles.
- Use the product in well-ventilated areas to avoid the accumulation of sanding dust and to minimise inhalation risks.
- Only use the grinding disc on the intended tool and for the intended materials in order to avoid dangerous risks.
- Avoid contact with skin to prevent skin irritation from sanding dust.
- Keep the product out of the reach of children to avoid the risk of choking on small parts.
- Do not use near open flames, ignition sources or flammable materials as sparks and flammable dust may be generated.
- Check the machine and grinding disc for damage before use to prevent electric shocks and accidents.
- Check the grinding disc regularly for wear and tear and replace if necessary.
- Keep fingers and hands away from the grinding disc during operation to avoid injury.
- Safety note: Secure the workpiece during sanding to avoid accidents.
- Use only with suitable and functioning protective equipment (e.g. eye protection, dust mask) recommended.
- Keep the grinding disc away from sharp or broken edges and secure it after use.
- Do not use in a humid environment as this may affect the conductivity of the devices.
- Harmless noise emissions may occur, use hearing protection during prolonged use.
