Safety Instructions:

- Use suitable respiratory protection, as dust and particle emissions can be harmful to health.
- Ensure that the sanding paper roll is securely and correctly mounted in the machine.
- Ensure that the electrical components of the grinding machine do not get wet.
- Keep away from the sanding surface to avoid injury from sharp edges.
- Always wear safety goggles and suitable hearing protection to avoid eye and ear injuries caused by sanding dust.
- Use suitable cutting and grinding tools to avoid injury.
- Keep the roller away from contact with water to avoid electric shocks.
- Use the product only for its intended purpose and keep it away from children.
- Use a Hoover for dust extraction and ventilate regularly to prevent dust accumulation.
- Wear suitable protective gloves to avoid skin irritation and injuries.
- Test before use on unprotected surfaces and use on a suitable surface to prevent damage and slipping.
- Do not use near open flames or sparks as the material may be flammable.
- Always wear suitable respirators and ensure that the product does not get into the hands of children to avoid the risk of ingestion.
- Observe the recommended maximum speed to prevent overheating and the risk of fire.
- Take care when using sandpaper on electrically powered machines; ensure that the machine is disconnected from the power supply before carrying out maintenance work.
