Safety Instructions:

- Please wear suitable personal protective equipment (PPE) such as safety goggles, hearing protection and gloves to avoid injury from grinding dust, sparks and noise.
- Avoid contact with the skin and use suitable respiratory masks, especially when working with stainless steel, to prevent skin irritation and inhalation of dust.
- The maximum speed must not be exceeded: 8500 min⁻¹, 12000 min⁻¹ or 13200 min⁻¹ depending on the product specification, in order to avoid kickbacks, overheating and safety risks.
- Check the fibre disc for visible damage before use and ensure that it is properly fitted to prevent slipping and product failure.
- Do not use in contact with water to avoid electrical hazards.
- Check the surroundings for flammable materials, keep a safe distance and keep the work area clean.
- Use only for its intended purpose in accordance with the manufacturer's instructions and ensure that only competent personnel use the product to minimise risks.
- Wear protective gloves, especially around sharp edges, to avoid injury to hands.
- Do not work overhead or in unfavourable body positions to avoid accidents.
- Keep the work area free of unnecessary objects and people during sanding.
- Suitable for processing steel and stainless steel, do not use for other materials.
- Read the instructions for safe handling and use of the product carefully and dispose of any waste properly.
