Safety Instructions:

- Wear safety goggles and ear protection to prevent eye and ear injuries.
- Use a suitable respirator to prevent dust and particle inhalation.
- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water.
- Observe maximum speeds: Do not exceed to prevent breakage or damage (34000, 52000, 95400, 47700, 23800, 25700, 32400, 42400, 66000, 62800, 119300, 93600, 130700, 206100 min⁻¹).
- Wear gloves to avoid injury from sharp edges or hot surfaces.
- Ensure adequate ventilation, especially when processing steel and cast steel.
- Do not use in the vicinity of flammable materials.
- Keep the mounted point out of the reach of children to avoid the risk of choking on small parts.
- Use only by trained personnel and read and follow the operating instructions carefully.
- Ensure that no loose clothing or hair can get into the work area.
- Before use, check for visible damage and ensure that the product is suitable for the application.
- Proper disposal in accordance with local regulations, especially in the case of worn material.
- Do not use in wet conditions as there is a risk of electric shock.
