Safety Instructions:

- Hand-operated machines with moving parts can cause injuries. Use safety devices.
- There is a risk of injury from flying parts when using high-speed tools. Wear protective equipment (safety goggles, gloves).
- The speed must not exceed 3700 rpm in order to avoid malfunctions and possible hazards. Ensure that the satin finishing roller is only used at the maximum speed of 3700 min⁻¹.
- Ensure that the workpieces are securely fixed during use to prevent injuries from flying parts.
- Keep the work area clean and free of other tools to avoid tripping hazards.
- Caution: High speeds (max. 3700 min⁻¹) can lead to injuries; avoid excessive speed.
- Do not use in the vicinity of flammable materials. Avoid contact with skin and eyes.
- Check tools regularly for signs of wear to ensure that they are safe to use.
- The satin finishing roller is only intended for use on metallic surfaces; other materials may harbour unforeseeable risks.
