Safety Instructions:

- Only use the product in accordance with the manufacturer's instructions and only for its intended purpose in order to avoid injury and overuse.
- Ensure that all parts, including the locking pin and locking ring, are correctly fitted and secured before use.
- Keep the work area clean and free of obstacles to avoid tripping hazards. Ensure good lighting.
- Use suitable tools for assembly and disassembly to avoid damage.
- The product may only be used by trained personnel. Consult a specialist if you are not familiar with the use of the product.
- Always wear suitable personal protective equipment, including safety goggles and gloves, to avoid eye injuries from dust and flying debris.
- Check the tool for visible damage or wear before each use.
- Keep children and unauthorised persons away while you are working with the tool and keep the product out of the reach of children.
- Avoid contact with moving parts during operation and ensure that the product is operated with suitable machinery and at the correct pressure.
- Do not store the product near extreme temperatures or moisture.
