Article Numbers: 717030, 717029, 717026, 717025

Safety Instructions:

- Only use the torque spanner within the specified range of 40-200 Nm or 20-120 Nm, depending on the model.
- Ensure that the torque spanner is properly calibrated before use and that the accuracy of $\pm 2\%$ is guaranteed.
- Avoid excessive pressure and ensure that the torque spanner is not loaded above the specified scale value limit.
- Store the tool in a dry place and protect it from extreme temperatures.
- Wear suitable protective equipment such as gloves and eye protection during use.
- Ensure that the product is used in accordance with the European standard DIN EN ISO 6789-2:2017.
- There is a risk of damage to components or injury if used incorrectly.
- Training in the correct use of the tool is recommended.
- The torque spanner should only be used by persons with the appropriate experience and knowledge.
- Keep the torque spanner out of the reach of children and use of the product by children is not recommended.
- Only use the torque spanner in accordance with the instructions contained in the operating instructions and read the operating instructions carefully before use.
- The product is only to be used for professional applications.
- Please follow the safety instructions to avoid injury.
- Contact the manufacturer if you have any questions about safety or handling.
