Safety Instructions:

- Use the product only for its intended purpose and in accordance with the manufacturer's instructions.
- The tool should be used under adult supervision or only by adults, especially if children are involved.
- Only use the tool on firm and stable surfaces.
- Wear suitable personal protective equipment such as gloves and safety goggles to avoid injury.
- Check the product regularly for damage and do not use it if it is damaged.
- Make sure that the socket is dry and clean and is inserted into a suitable tool to minimise the risk of injury.
- When working, keep your distance from moving parts and never use the tool when the power supply is switched on.
- Keep the work area clean and well lit to avoid accidents.
- Store the product in a dry place and protect it from moisture, water, extreme heat and corrosion.
- Do not use beyond the maximum specifications and do not overload.
- Keep the product out of the reach of children to avoid the risk of injury.
- Before use, follow the instructions for safe use and contact the manufacturer if necessary.
- Suitable protective measures are required for professional applications.
- Ensure compatibility when using with an impact wrench.
- Remove the socket spanner insert from the power source immediately after use.
