Safety Instructions:

- Take safety precautions when handling tools to minimise the risk of injury.
- Do not use in water or damp environments to prevent rust formation.
- Ensure that the socket is correctly inserted into the drive to avoid injury.
- Wear suitable protective equipment such as gloves and safety goggles to prevent injuries from sharp edges or flying parts.
- Only use the product in accordance with the stated specifications and manufacturer's instructions.
- Before use, ensure that the insert is undamaged and clean to avoid safety risks.
- Keep away from children. Not suitable for children under 3 years (choking hazard due to small parts), 12 years or 14 years.
- Only suitable for professional use by adults or under adult supervision.
- Store in a safe and dry place, out of the reach of children, to avoid the risk of injury.
- Protect from moisture and extreme temperatures to prevent corrosion and material wear.
- If the product is visibly damaged or cracked, stop using it immediately.
- Ensure that the socket is only used with suitable and compatible tools.
- Keep the workplace clean and tidy to avoid tripping hazards and other dangers.
- Use only in conjunction with suitable tools and expertise.
- Take safety measures to prevent slipping or uncontrolled movements of the tool.
- Include safety information and instructions for use in understandable language and read them before use.
