Article Numbers: 734481, 734480, 734479, 734478, 734477, 734476, 734475, 734474

Safety Instructions:

- Do not exceed the maximum torque setting to avoid damage.
- Do not overload the torque spanner to avoid incorrect settings and damage.
- Wear safety goggles and gloves to avoid eye and hand injuries.
- Ensure that the torque spanner is calibrated to the correct setting before each use.
- Check the appliance regularly for functionality and defects and do not use if there are any defects.
- Keep children away to avoid accidents.
- The product should only be used by qualified or trained persons.
- Improper use can lead to crushing, cutting and suffocation injuries.
- Keep the appliance out of the reach of children.
- Wear suitable personal protective equipment during use.
- Read the operating instructions carefully before use in order to follow the safety instructions.
- Do not modify or repair the torque spanner yourself.
- Keep the torque spanner away from moisture and extreme temperatures to maintain accuracy.
- Risk of injury due to mechanical impact if handled incorrectly.
- Make sure that the selected torque range is suitable for your application.
- Before use, ensure that the torque spanner is correctly calibrated.
- Do not use in potentially explosive atmospheres.
- Do not use the spanner to pull over fastenings, as this can cause damage.
- Keep the torque spanner away from oil or other lubricants that can make the gripping surface slippery.
- The scale sleeve must not be scratched or damaged, as this may impair legibility.
