Safety Instructions:

- Suitable protective gloves should be worn when using the rubber retaining ring to prevent skin injuries.
- Use in combination with unsuitable tools can lead to injury or damage. Ensure that you only use compatible devices.
- The rubber retaining ring must not be overloaded to prevent the product from failing.
- Keep the rubber retaining ring away from heat sources and direct sunlight so as not to impair its material properties.
- If the ring is damaged, it must be replaced immediately to avoid safety risks.
