### Safety Instructions:

- Only use the product in accordance with the manufacturer's instructions to avoid damage and injury.
- Only use for the intended applications in accordance with the product description.
- Wear suitable protective equipment (e.g. gloves and safety goggles) during use to avoid injury.
- Protect the product from moisture and extreme temperatures to prevent material damage.
- When using the tool, make sure it has a stable base to prevent it from tipping over or falling.
- Check for damage before use; do not use damaged products and dispose of them safely.
- If the product is damaged, stop using it and have it checked by a specialist.
- Not suitable for children; keep product out of reach of children.
- Carefully read and follow the safety information and instructions for use.
- Only use the product with suitable electric or pneumatic impact wrenches.
- Use suitable tools and check the installation of the locking pin and ring to prevent slipping or breaking off.
- Do not use the product near flammable or humid environments.
- Wear suitable personal protective equipment, such as safety gloves and safety goggles, during use.
- Keep the working environment free of hazards and observe the safety information and instructions for use before use.
- Improper use may result in injury due to breakage or failure of the tool.
- Have the product operated by qualified personnel.
- Check the product regularly for visible damage to rule out safety risks.
- Regularly follow the manufacturer's instructions regarding handling and maintenance.
