Article Numbers: 711687, 711686, 711627, 711600

Safety Instructions:

- Ensure safe handling of the bending device to avoid injuries.
- Ensure that all safety devices are intact before using the appliance.
- When working with pipes, wear suitable protective gloves and, if necessary, protective clothing to prevent injuries.
- The appliance may only be used with the recommended materials (copper, aluminium and precision steel).
- Make sure you have a stable base to prevent the appliance from tipping over during operation.
- The appliance should be kept out of the reach of children. Safety warning: Not suitable for children under 3 years of age due to choking hazard from small parts.
- Always observe safety precautions when using the bending device.
- Adjust the clamping device securely to prevent injuries caused by crushing and slipping of the material.
- Wear safety goggles to protect your eyes from any falling parts.
- Observe the safety instructions: Only cut and bend in accordance with the operating instructions.
- Caution: Risk of injury from sharp edges and mechanical parts if handled incorrectly.
- All safety and application instructions in the operating instructions must be read and followed before using the appliance.
