Safety Instructions:

- Before use, ensure that the socket is properly and completely installed and is not damaged.
- Use the product only for its intended purpose and in accordance with the manufacturer's instructions to avoid injury and safety risks.
- For their own safety, persons should be trained personnel or have received appropriate training.
- Suitable personal protective equipment (e.g. safety goggles and gloves) is required during use to prevent injuries.
- The product must be kept out of the reach of children to prevent injury.
- Avoid contact with electrical sources, chemicals, naked flames or sparks, even if the product is non-sparking.
- Only use the product in dry environments to minimise the risk of short circuits.
- Not suitable for children under 3 years due to small parts and choking hazard.
- Regularly check the condition of the socket spanner insert to ensure that there are no cracks or wear.
- Only use correctly dimensioned sockets to prevent damage to bolts or nuts.
- Ensure that the socket spanner insert is stored appropriately to prevent damage and safety risks.
- Take care when using in potentially explosive atmospheres.
- Do not modify or use improperly in order to minimise safety risks.
- Avoid extreme temperature conditions that could affect the performance of the product.
- The product is not suitable for applications with electrical conductivity.
- Ensure that the socket is clean and not contaminated with hazardous materials.
