

Product Safety Information

Endres tools Roller Fork Wrench, SW max. 36 mm, length 300 mm, copper beryllium, non-sparking, hexagonal

Manufacturer/Responsible Person: Endres Tools GmbH, Am Eichholz 12, 42897 Remscheid, Deutschland

E-Mail: info@endres-tools.de

Please note the technical data of the products!

Article Number: 718868

Safety Instructions:

- Take care when handling the tool to avoid injury.
- Do not use in electrical applications as the adjustable spanner is not electrically insulated.
- Avoid contact with corrosive chemicals that could attack the copper-beryllium material.
- Take particular care when using on hazardous materials (e.g. under high voltage), as sparks may occur.
- Recommended for use by trained professionals to avoid improper handling.
