Safety Instructions:

- Careful handling is required to avoid crushing injuries.
- There is a risk of injury due to trapping if used incorrectly.
- Only use the device for its intended purpose in order to minimise risks.
- Take care when using heavy, long pipes to prevent them from slipping.
- Observe protective measures to protect fingers and hands when adjusting the clamping mechanism.
- Please observe the maximum load of the appliance to avoid breakage.
- Children should only handle the product under adult supervision.
- The movable upper clamping jaw can cause injuries if not used correctly.
