Safety Instructions:

- Wear safety goggles and protective gloves to avoid eye injuries and injuries to the hands.
- Do not use the product improperly; only use it for its intended purpose to avoid damage and injury.
- The product should be used on non-slip surfaces and especially not near water or damp places to prevent falls.
- Only use the intended power tool and accessories and follow the manufacturer's instructions to avoid malfunctions.
- Ensure that the tool is in good condition before each use; do not use damaged or worn parts.
- Ensure that the tool and accessories are only used by trained personnel.
- Ensure that there is sufficient lighting when using the device to avoid accidents.
- Keep the product out of the reach of children to avoid the risk of suffocation or injury.
- Use only for the intended purpose and comply with all safety standards to minimise risks.
- Not suitable for children under 3 years of age as small parts may be present.
- When using electrical tools, ensure that the power supply is switched off.
- Secure the connection to prevent the tool from slipping.
