Safety Instructions:

- Ensure that the product is not damaged before use.
- Wear suitable personal protective equipment (e.g. gloves, safety goggles) to avoid injury.
- Ensure correct handling and use to avoid injury.
- Keep the product out of the reach of children as it is not suitable for them (not suitable for children under 3 or 12 years of age due to choking hazard from small parts).
- Observe the safety information and instructions for use provided by the manufacturer.
- Ensure that the socket is correctly seated on the drive and is not damaged in order to avoid injury.
- Avoid contact with water to prevent corrosion and malfunctions of the tool.
- Do not use excessive force to avoid damaging the tool and causing injury.
- For professional use only, with suitable tools and in accordance with the enclosed instructions.
- In the event of product-related damage, stop use immediately and contact the manufacturer.
- Store in a dry place to prevent corrosion.
- Do not use improperly and observe the correct direction of rotation when tightening or loosening screws.
- Maintain the product properly to avoid malfunctions.
- Keep technical documentation in case of complaints or recalls.
- Use in accordance with the DIN 3124/ISO 2725-1 standards.
