Safety Instructions:

- Only use the product in accordance with the intended applications and the manufacturer's instructions.
- The product is not suitable for children under 3 years of age due to the risk of choking on small parts.
- Not suitable for children under 12 years of age due to the possibility of injury from improper use.
- Not suitable for children under 14 years of age. Keep the product away from children.
- Ensure that the product is not damaged or defective before using it. Check products for damage before and after use.
- Wear suitable protective equipment (protective gloves, safety goggles) during use.
- Only use the product in dry environments to reduce the risk of slipping or rust formation.
- The socket is suitable for use with standardised 20.0 mm (3/4 inch) drives and requires compliance with the approved torque values, max. 200 Nm.
- Before use, ensure that the socket is compatible with the corresponding drive.
- Warning of risk of injury: There is a risk of injury if the socket spanner insert is handled incorrectly.
- Keep the work area clean and organised to avoid accidents.
- Attach warning notices about possible risks of injury due to improper use.
- Do not use near water or wet environments to avoid electrical hazards.
- Avoid exposing the socket to excessive loads or sharp edges to prevent material failure.
- Take care to avoid fingertip pressure between the socket and the workpiece.
