Safety Instructions:

- Carefully read and follow the instructions for use before first use.
- Wear safety goggles and protective gloves to prevent injuries from impacts, splinters, sharp edges and improper handling.
- Do not use the tool in damp environments or for electrical work to prevent corrosion and electric shocks.
- Keep the work area clean, dry and well lit and avoid the risk of slipping and falling.
- Before using the tool, check that it is intact and look for visible damage to avoid accidents.
- Only use the tool for its intended purpose and observe the maximum load capacity.
- Store the tool in a safe, dry place out of the reach of children.
- Keep body parts away from moving parts of the tool during use.
- Do not overload or use the tool as a lever to avoid damage and injury.
- Make sure that the twist pin is correctly positioned to prevent it from slipping.
- Keep other people away from the danger zone to avoid accidents.
- The tool is not suitable for children under the age of 14, as there is a risk of injury.
- Avoid excessive pressure and prolonged work to prevent fatigue and damage.
- Check the tool regularly for wear or defects to ensure safety.
