Safety Instructions:

- Use only for technical applications; improper use may result in injury.
- Ensure that the product is checked for visible defects and is in perfect condition before each use. Do not use the product if it is damaged or defective.
- Wear suitable protective equipment (e.g. gloves, safety goggles) to avoid injury.
- Do not use near water or damp conditions to avoid electrical hazards.
- Keep the product out of the reach of children to minimise the risk of injury.
- The plug-in attachment must be firmly seated. Ensure that the protective ring is fitted correctly to prevent slipping and accidents.
- Only use the product for its intended purpose and in accordance with the manufacturer's operating instructions.
- Ensure that the tool is secured to prevent unwanted movements and to keep the work area free of obstacles.
- The product should not be used by children under 3 years of age or without adult supervision, as there is a risk of choking on small parts.
- Store the product safely after use to avoid accidents.
- Avoid contact with moving parts during operation to prevent injury.
- Comply with national and European standards for product safety and provide information about possible hazards and risks when using the product.
