Safety Instructions:

- Before using the torque spanner, read the operating instructions carefully and observe the safety instructions to avoid improper use.
- Check the condition and functionality of the torque spanner for damage or wear before each use. In the event of damage, repair or replace immediately.
- Ensure that the torque spanner is correctly calibrated before use and reset to the zero position after each use to ensure accurate values and prevent damage.
- Only use the torque spanner within the recommended torque range of 60-300 Nm or 40-200 Nm, depending on the model, to avoid overloading and damage.
- Keep the key clean, dry and away from extreme temperatures. Store it in a dry, safe and cool place away from children to ensure it functions properly.
- Wear suitable personal protective equipment such as gloves and safety goggles to avoid injury.
- The torque spanner may only be operated by a qualified person in accordance with the operating instructions. Negligent use may result in injury and the manufacturer accepts no liability for improper use.
- Children should be kept away from its use to avoid danger.
- Follow the instructions for safe handling of electrical equipment to avoid electric shock and ensure that all parts are fully assembled before use.
