Safety Instructions:

- Suitable for professional applications, therefore use with safety in mind.
- There is a considerable risk of injury if handled incorrectly.
- Wear safety goggles to prevent eye injuries.
- Always use the correct factory technique to avoid damage to the product or injury.
- Keep the product out of the reach of children.
- Do not use the product if it is visibly damaged.
- The use of protective gloves is recommended to avoid injury.
- Avoid direct contact with sharp edges during use.
- Do not overload the product to prevent damage and injury.
- To ensure safe use, the tool should always be kept in a stable condition.
- Do not use near water or damp environments to minimise the risk of electric shock.
- Check regularly for damage to rule out safety risks.
