Safety Instructions:

- Before use, ensure that the product is undamaged and check regularly for damage.
- Use suitable personal protective equipment such as safety goggles and protective gloves to avoid injury.
- Do not overload the product and only use it for its intended purpose and in accordance with the manufacturer's instructions.
- Avoid use in limited visibility, wet environments or near power lines to minimise the risk of electric shock.
- Keep the work area clean and tidy to minimise the risk of tripping and accidents.
- Keep the product out of the reach of children and do not allow children to use it as there is a risk of injury.
- During use, ensure that no unprotected parts of the head or eyes are exposed and that the spanner is properly secured to prevent it from slipping.
- Check the tool for visible damage or wear before use and replace if necessary.
- Wear protective gloves, especially when handling heavy or mechanically demanding objects.
- Do not use to repair electrical appliances to avoid the risk of electric shock.
- Only allow qualified personnel or experienced users who observe the safety instructions to operate the appliance.
