Safety Instructions:

- Only use the combination spanner for the intended applications to avoid damage and injury.
- Wear suitable protective equipment, such as gloves and safety goggles, to prevent injuries.
- Keep away from children, it is not a toy.
- Before use, ensure that the tool is in perfect condition and check for damage.
- Store the tool in a dry and safe place to prevent rust and damage.
- Avoid applying excessive force to prevent the tool from slipping or breaking.
- Ensure that the spanner is correctly seated on the bolt or nut to prevent slipping.
- Read the instructions for use carefully before using the product.
- Secure the work area and pay attention to the position of the workpiece to avoid accidents.
- Wear suitable personal protective equipment during use, e.g. gloves and eye protection.
- There is a risk of injury if used incorrectly.
- Do not use the combination spanner on heavily soiled or damaged screws.
- Take particular care when using in damp or wet environments.
- Ensure that the tool is not used beyond the recommended load to avoid breakage.
- Keep fingers and hands away from moving parts to avoid crushing.
- The product is not suitable for children under 12 years of age.
