Safety Instructions:

- Use the product only for the intended applications in gardening/landscaping and other specified areas. Do not use as a toy for children and keep away from children.
- Take care when using near sensitive surfaces to avoid scratches or damage.
- Wear suitable protective equipment such as protective gloves and protective equipment to avoid injury.
- The product may be damaged or cause injury if used incorrectly. Use suitable protective devices.
- Ensure that when used with other materials, these also comply with the safety standards.
- The product should be stored in a safe, dry place, away from moisture and extreme temperatures.
- If the rubber mallet is damaged, discontinue use. The product can be damaged by mechanical overload.
- Ensure proper disposal of the product in accordance with the instructions.
- Keep the product out of the reach of children to prevent misuse. Not suitable for children under 3 years of age due to choking hazard from loose parts.
- Clean the product regularly to ensure its longevity and functionality.
- Wear suitable protective equipment when using outdoors.
- Always follow the manufacturer's instructions for safe use.
