Safety Instructions:

- Use safety goggles when working to avoid eye injuries.
- Do not use the hammer for applications that are not listed in the product description.
- Ensure that the hammer is held correctly and securely in the hand to prevent it from slipping.
- Before use, check that the hammer is undamaged, especially the wooden handle and the striking head, to avoid breakage or splinters.
- Wear suitable safety equipment, including safety goggles and gloves, especially when working near sharp edges.
- The use of the hammer requires special training in order to avoid injuries.
- Avoid contact with the skin when using the hammer.
- Keep the work area clean and tidy to avoid tripping hazards.
- Read and follow all safety instructions and handling instructions carefully.
- Do not aim the tool at people or animals.
- Ensure safe handling and storage of the product.
- Please note that the product is not suitable for use by children under 3 years of age.
- Ensure safe handling of the impact hammer during use.
