Safety Instructions:

- Choking hazard due to small parts. Not suitable for children. Keep away from children.
- Risk of injury due to improper use. Safety equipment recommended: Safety goggles and gloves. Use protective clothing, especially safety goggles and gloves.
- Shock can cause injury. Do not use in the vicinity of other people to avoid accidents. There is a risk of serious injury if handled incorrectly.
- Do not overload the wooden handle to avoid breakage. Check the condition of the product before each use to avoid accidents due to damage.
- Wear safety goggles to protect your eyes from splinters. Suitable safety goggles must be worn during construction and repair work to prevent eye damage.
- Do not hit hard surfaces to avoid chipping the impact head. Take care when using: The hammer could break if used improperly.
- Avoid using the hammer near electrical cables to minimise the risk of electric shock.
- Ensure that the hammer is correctly mounted before starting work. Use on stable surfaces is recommended to prevent slipping during use.
