Safety Instructions:

- Wear protective equipment when working with the product, especially eye protection and gloves, to avoid injury.
- Do not use the product near the face to avoid injury.
- Design ergonomically and use handles with non-slip properties to prevent slipping and fatigue.
- Before use, ensure that the product is in perfect condition by regularly checking for visible damage, handle and inserts.
- Ensure that the work area is clear of other people to prevent injuries from accidental knocks.
- Only use the tool on flat, stable surfaces.
- Children should not use the product and it should be kept out of their reach. If use under adult supervision is necessary, this should be done.
- If the product is damaged, stop using it immediately and inform the manufacturer.
- Only use the product for its intended purpose to minimise the risk of misuse, damage or injury.
- Read the instructions for use and safety information before use.
