Safety Instructions:

- Suitable personal protective equipment such as gloves and eye protection must be worn when using the perforator.
- Caution: Risk of injury from sharp edges during the punching process.
- The product is not suitable for use by children and should be kept out of their reach.
- Risk of electric shock due to improper use near electrical installations. Never use the appliance near water or damp areas.
- Details on material use: Only suitable for sheet steel and plastics up to 2-3 mm thick. Only use in accordance with the specifications for material thickness and diameter.
- Ensure that the tool is used on a stable and secure surface. Only use in dry and suitable environments.
- Risk of cuts from sharp edges during use. Observe safety precautions and wear protective gloves.
- Read the detailed operating instructions carefully before using the tool for the first time. Before use, check that the tool is correctly assembled and in good condition.
- Use only for the intended purpose to avoid injury from improper use.
- Choking hazard: Small parts could be produced during use that are dangerous for children.
- Improper use can cause breathing problems due to dust or metal chips. Wear safety goggles to avoid eye injuries from chips or splinters.
- Use only for the intended use in metalworking by trained specialised personnel.
