Safety Instructions:

- Always wear safety goggles and other suitable protective equipment such as gloves to avoid injury.
- Keep hands and other body parts away from sharp blades and beware of danger from foreign objects such as nails or concrete debris.
- Only use the product with the intended machines and in accordance with the manufacturer's instructions to ensure proper and safe operation.
- Ensure that the saw is firmly and stably mounted and disconnect the machine from the power supply before changing the saw blade.
- Check the product regularly for wear or damage and avoid operating it near water or in damp conditions.
- Keep the working area clear of other people during operation and read the operating instructions carefully.
- Avoid the risk of suffocation from small parts by handling the product correctly.
- Excessive pressure can lead to rapid wear or breakage; do not use for cutting materials closer than 20 mm to the hands.
