Please note the technical data of the products!

Article Numbers: 715376, 715375, 715374

Safety Instructions:

- Risk of suffocation due to improper handling of small parts and cables, especially if small parts can be pulled out.
- Risk of electric shock due to improper use of electrical components. Avoid contact with water and do not use the product near water.
- Skin or eye irritation due to contact with sharp edges or wire ends.
- Risk of injury due to improper use of the appliance, especially with high tractive force. Take particular care with a high tensile load of up to 4500 kg and ensure that the maximum tensile load of 330 kg is not exceeded.
- Monitoring of use and proper instructions for safe handling required. Always follow the safe use instructions and warnings. Only use the product as described in the operating instructions.
- The product is not suitable for children under 14 years of age. Keep the product out of the reach of children to prevent choking and other injuries.
- Regularly check the condition of the fibreglass rod for cracks or damage before using it.
