

Product Safety Information

Multimeter MM 6-2 0.000 V -1000 V AC/DC TRUE RMS BENNING

Manufacturer/Responsible Person: Benning Elektrotechnik und Elektronik GmbH & Co. KG, Münsterstr. 135-137, 46397 Bocholt, Deutschland

E-Mail: info@benning.de

Please note the technical data of the products!

Article Number: 719476

Safety Instructions:

- High voltage can be life-threatening. The safety regulations must be observed when using the multimeter.
- Do not use the device in wet or damp environments.
- The appliance is not suitable for use in potentially explosive atmospheres.
- Protective measures against electric shocks are required. Do not touch any exposed wires or contacts during measurements.
- Use the test leads supplied and ensure that they are in good condition.
- The device must not be operated with voltages above the specified limit values (CAT IV 600 V, CAT III 1000 V).
- Secure the device against mechanical damage and environmental factors.
