

Product Safety Information

Leakage current clamp CM 9-1 Measuring range 0.010 mA-60 A AC Clamp opening max.23mm

Manufacturer/Responsible Person: Benning Elektrotechnik und Elektronik GmbH & Co. KG, Münsterstr.
135-137, 46397 Bocholt, Deutschland
E-Mail: info@benning.de

Please note the technical data of the products!

Article Number: 719488

Safety Instructions:

- Attention: High voltages! This measuring device is designed for measurements up to 600 V AC/DC.
- Observe protection against external magnetic fields - no more than 30 A/m in accordance with EN 61557-13, class 2.
- Avoid contact with water or wet hands to prevent the risk of electric shock.
- Pay attention to small parts that could be swallowed by children.
- Do not use in the vicinity of potentially explosive atmospheres.
- Users must follow the instructions for zero adjustment (ZERO) and automatic range selection to obtain accurate readings.
