Safety Instructions:

- Before use, ensure that all parts are firmly and correctly fitted.
- Do not bring hands or clothing into the movement zone during use.
- Do not overtighten the clamping lever to prevent damage to the turning mechanism.
- Check the turning mechanism regularly for dirt and clean if necessary.
- Use only in conjunction with the appropriate HEUER vice.
- Caution: The continuous 360° rotation could cause injuries.
- Ensure that the clamping lever is correctly locked to prevent unintentional movements.
- Product for adults only, not suitable for children. Smaller parts may pose a choking hazard.
- Safe handling required to avoid injury from mechanical hazards.
- Additional training required for safe operation.
- Wear protective clothing for safe use.
- Instructions for installation and use must be included with the product.
- Improper use can lead to injuries. Use only for the intended applications.
- Please observe the safety instructions in the operating instructions.
- Keep fingers and hands away from moving parts.
- Avoid risk of injury due to improper use.
- Keep the work area clean and well lit to avoid accidents.
