Safety Instructions:

- The anvil poses a risk of injury if used incorrectly. Use and store it safely to avoid falling or dropping it.
- The anvil is heavy (50 kg) - make sure that it is set down and transported safely.
- Wear safety goggles and suitable protective gloves to avoid injury from sparks, sharp edges and hot surfaces.
- Avoid contact with hot surfaces during and after using the anvil.
- The anvil should only be used by persons who are familiar with the safety regulations for forging.
- Children should be kept away from its use; the anvil is not suitable for children and should be used under adult supervision.
- In the event of defects or damage, discontinue use immediately and return the anvil for inspection.
- Avoid contact with water or moisture to prevent rust formation.
- Before use, ensure that the anvil is securely anchored and placed on a stable, firm base to prevent it from tipping over.
- Only use the anvil for its intended purpose.
