Safety Instructions:

- Read the operating instructions carefully before use.
- Protect your hands and eyes when handling the drill vice by wearing suitable personal protective equipment such as safety goggles and gloves.
- Keep a safe distance from moving parts and ensure that no part of the body can get caught between the jaws; keep hands and clothing away to avoid crushing.
- Keep the product out of the reach of children and stop using it immediately if it is damaged.
- Please carry out regular maintenance, inspections and checks for damage to the jaws and mechanics.
- Use only by trained personnel or under supervision and only for the intended purpose to avoid the risk of injury.
- Careful handling of the product to avoid injury from crushing, suitable fixing of the workpiece and no overloading or improper use.
- Avoid loose clothing and jewellery while working.
- Do not use in excessive heat or humid conditions.
