Safety Instructions:

- Observe the maximum contact pressure of approx. 250 kg to prevent injuries.
- Check that the clamp is properly locked before use to prevent loosening under high pressure.
- Risk of injury due to crushing: Keep fingertips and body parts away during use.
- Not suitable for children - keep out of reach of children.
- Do not overload the one-handed clamp or use it improperly.
- Safe handling requires correct assembly and stability of the tool.
- Keep loose clothing and body parts away from moving parts.
- Use of soft protective caps protects workpieces and increases safety.
- Do not exceed the maximum permissible load to avoid damage.
