Article Numbers: 720120, 720119, 720117, 720116, 720115, 720114

Safety Instructions:

- The product should be used in accordance with the instructions to avoid injury.
- Keep away from children to minimise the risk of injury and choking due to small parts.
- Wear protective gloves to avoid skin injuries caused by sharp edges.
- To avoid damage or injury, do not use the product beyond its specifications.
- Make sure that no foreign objects can get between the moving parts of the product and be careful when handling the moving parts.
- Do not use beyond the maximum clamping force of 5000 N to avoid damage or accidents.
- Caution should be exercised when using on slippery or uneven surfaces.
- Avoid contact with water or other liquids to prevent corrosion of the metal parts.
- The clamp is not suitable for use in electrical applications; there is a risk of electric shock.
- The product should be stored in a place inaccessible to children to prevent injuries caused by improper use.
- Wear suitable protective equipment before use to avoid injury.
- Improper use may result in injury due to crushing or mechanical damage.
- Do not use the product near heat sources or open flames.
- Ensure that the clamp is used on a stable and level surface to avoid accidents.
- Observe the correct handling and use of the clamp before use.
- Ensure that the clamp is only used for its intended purpose.
- Observe the manufacturer's safety instructions and instructions for use.
- The product is not suitable for children under 12 years of age without supervision.
- Secure the workpiece before using the clamp.
