Safety Instructions:

- Ensure safety when clamping to prevent the clamp from slipping.
- Avoid contact with the skin during the clamping process to prevent injury.
- Regularly check the condition of the pressure plates and the sliding bracket to prevent mechanical damage.
- The product must not be used in the vicinity of children in order to avoid injuries caused by unintentional grasping.
- Follow the operating instructions for safe use and maintenance of the screw clamp.
- Take care when using under high voltage to avoid injury.
- Keep fingers and other parts of the body away from the clamping mechanism to avoid crushing.
- Keep out of the reach of children to prevent injury from improper use.
- Not suitable for children under 3 years of age as small parts can be swallowed.
- Follow the installation and application instructions to avoid injury.
- Before use, check that all parts are correctly and securely fitted.
- Wear safety goggles to avoid injury from falling objects.
- Do not use above the maximum clamping force of 6000 N to avoid the risk of breakage.
